Tarragona

June 14, 2022

Dr Josep Ribalta Vives
Principal investigator of the VERSA Project
Universitat Rovira i Virgili, Tarragona
(Spain)

This project has received funding from the European Union's Horizon 2020 Science with and for Society Call (Swafs-2020 Topic 8) under grant agreement No. 101006420.

MODULE 1. COGNITIVE FLEXIBILITY

Video game: Portal 2
Date: April-May 2021

Soft skill application:

- ✓ *Multi-tasking, manage and tolerate changes between tasks or activities without losing efficiency.*
- ✓ *Taking into account different perspectives when analysing a problem.*
- ✓ *Better tolerating errors and unforeseen events.*

MODULE 2. CREATIVITY

Video game: Cities Skylines
Date: May-July 2021

Soft skill application:

- ✓ *Generating different methods to improve knowledge retention during the study.*
- ✓ *Thinking about new ways to improve communication in a work team.*
- ✓ *Generating disruptive questions.*
- ✓ *Thinking of new lines of work, group activities, games with friends, etc.*

MODULE 6. TIME MANAGEMENT

Video game: Minion Masters
Date: March-May 2022

Soft skill application:

- ✓ *Organising tasks in the most time-efficient and productive way possible.*
- ✓ *Being aware of how long it takes other people to complete tasks and keeping that variable in mind when assigning tasks or planning a project.*
